SC-04MHD

4CH Multi-format / Full HD Video Splitter

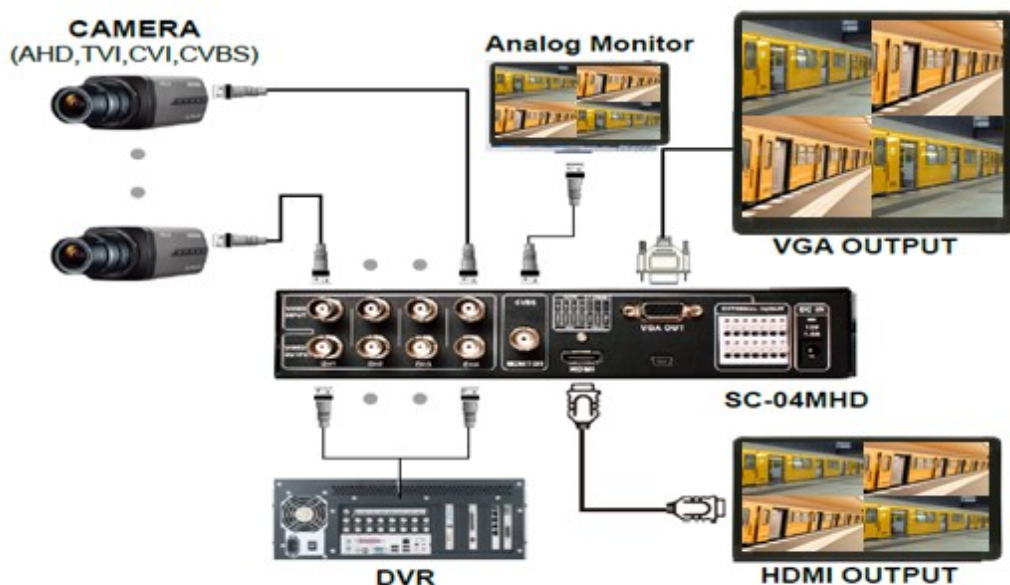

❖ Multi-format 4CH splitter SC-04MHD

❖ What is the multi-format 4CH splitter SC-04MHD?

The SC-04MHD, high resolution splitter, receives Full HD Analog camera video signals and splits them into various division types without deterioration in image quality. It can be output clearly on a Full HD (1920 * 1080) monitor screen by automatic sequential switching.

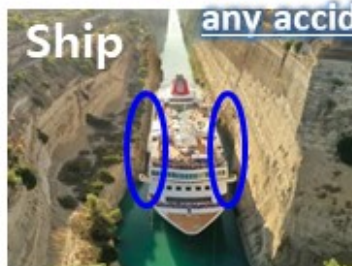

❖ The system diagram of SC-04MHD

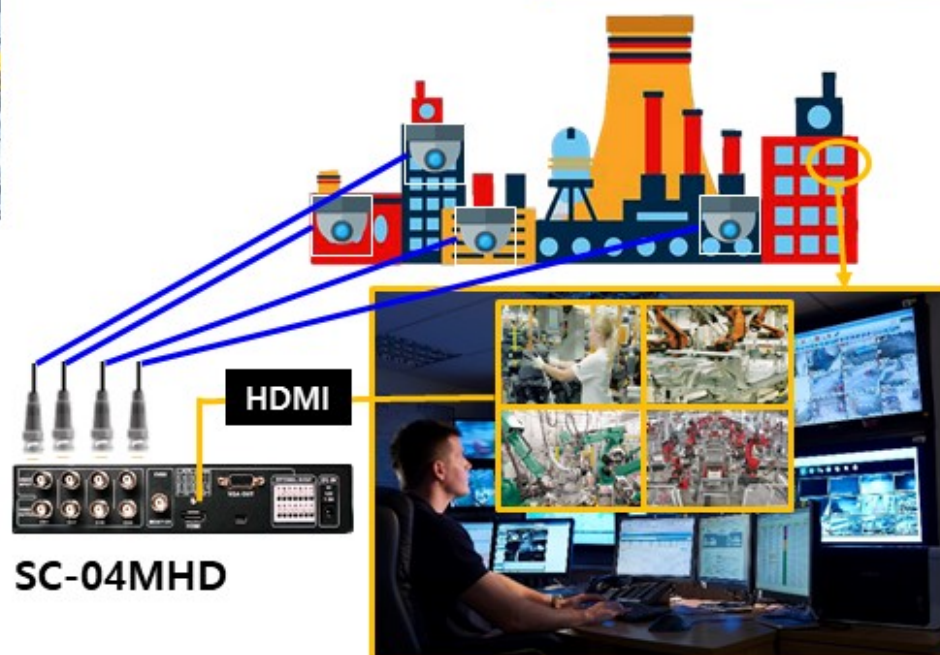

❖ Applications

❖ Vehicle operators
can monitor **blind
spots** to prevent
any accidents
